United States Congress

Presented By:

## *From the Desk of Bob Barr*

**Chairman and Co-Founder, Liberty Guard**

Dear Friend of Liberty,

Liberty Guard is proud to present to you its first Liberty Scorecard of Congress, based on the actual votes of Congressmen and Senators taken in office.

Eternal vigilance is the price of liberty; the most important thing an informed citizen can do is to be aware of the actions of his or her elected officials taken while in office. Liberty Guard works to protect and defend liberty in the real world; the votes taken by our representatives in Congress have real-world implications, which means that this scorecard is a crucial tool for liberty-minded citizens across the country.

We look forward to working with you to ensure our citizens and elected officials are aware of the impact of their decisions on our liberties, and of the important real world consequences those have for all of us.

Sincerely,

**The Hon. Bob Barr**

## **The Mission Of Liberty Guard:**

We are a fast-growing, pro-liberty organization with an army over 100,000 strong. We stand for privacy, personal autonomy, and individual freedom – freedom from federal overreach, from oppressive government searches that trample 4th Amendment rights, and from an overly complicated tax code that hampers economic growth and infringes property rights.

We seek to identify and galvanize freedom lovers across the U.S., and educate and influence Congress' policies on liberty issues.

## **Liberty Guard Has One Purpose:** *Protect and Defend Individual Liberty in the Real World.*

### **Liberty Guard believes:**

- That government is necessary, but less government is the best government.
- That government is the natural enemy of liberty.
- That individuals, and individuals alone, are the best decision-makers for their own lives.
- That individuals are guaranteed the presumption of innocence and the freedom from unreasonable search and seizure in all they do.
- That respect for individual property rights is a basic building block of a productive and peaceful society.
- That the government should strive for honesty, transparency, and simplicity, in all things.

**W**e know that with freedom comes responsibility, and we take that responsibility seriously. We demand a high level of conduct from ourselves as well as from those who represent us. We believe in the principles that our government was founded on, and we live them in our daily lives.

We live in a world in which government neither trusts nor respects us to make the best decisions for ourselves. Washington is dominated by a political class ruled by power and money, and is infested with moral decay. We wish to return it to the principles of freedom on which it was founded, and for which its namesake – George Washington – stood.
